

Today
Radio Can't Answer
Big Brain, but Unwise
Japan in South America
Imagine Her Surprise
—By Arthur Brisbane—

THE PRESIDENT appeals to the nation, by radio, to support the World Court. This is in part a reply to the state of Illinois which, with 200,000 votes to spare, nominated Mrs. Ruth McCormick for the Senate. Her campaign was an attack on the World Court. Her opponent, Mr. Deness, favored it.

The radio gives you no answer. Talk as earnestly as he may, the President cannot know what his hearers think.

If I believe in the "radio" to "President Hoover, Washington, D. C., I do not want the United States in the World Court (or I do want the United States in the World Court) that would be enlightening.

Russia laments its "best poet," Vladimir Mayakovsky, who killed himself recently, leaving his brain to the "Soviet Institute of Brains." It was dissected, studied, found to weigh 1700 grammes, and put away with the brains of Lenin and others.

It was a big brain, heavier by 400 grammes than the average, but not wise enough to keep the poet from killing himself.

The poet's farewell letter requests the "comrade government" to take care of his mother and sister, also "Lily Erik and Veronika, Polonskaya."

The last two women both loved him; at least he thought so, and he killed himself because he couldn't decide which of the two he liked better.

All poets are more or less queer. Russian poets probably the queerest.

Japan's plan for extensive colonizing in Brazil is proceeding energetically. Hachiro Fukuhara, who organized and manages the "Japanese Colonization Company of Plantations in Brazil," has secured 2,500,000 acres.

Hundreds of thousands of Japanese can live and grow prosperous on that fertile soil.

The crops will include cotton, rice, tobacco and the coconuts.

Intelligently managed, Brazil's Japanese colony will supply to its members basic supplies at prices. Three million to

'PAID' FOR LIQUOR PROTECTION

Lawrence F. Quigley, former mayor of Chelsea, named in testimony as having received bribes in connection with ash and garbage removal contracts, was today called as a witness in the so-called Chelsea graft case.

Quigley, who had previously been refused permission for his counsel to refuse to answer questions, was called as the stand by Attorney General Cummings, who called for 10 taxpayers whose action resulted in the case.

ALEX GASTON AND HADLEY HOOK UP

West, First Washington Hitter, Clips Gaston for a Homer; Small Crowd Out

Fenway Park, April 16.—Milton Gaston, veteran right-hander, was Manager Heinie Wagner's selection to hurl for the Red Sox in the third game of the season against the Senators here this afternoon.

Wagner, who had been in the dugout since the first inning, was seen to be in the box when the Red Sox took the field.

First Senator Hits Four-Bagger

Wagner, Washington center fielder, opened today's game with Boston in an auspicious manner. All he did was to pole a homer. You see him ready to swing on the ball. The umpire is Moriarty. (Staff photo.)

\$427,213 Spent Last Year in Repeal Drive

Washington, April 16 (AP)—Containing three out of four persons in the United States were in favor of repeal of the prohibition law, according to a survey made by the National Association for the Repeal of Prohibition, today.

WALSH BACKS TAX CUT DRIVE

Leading a notable field of 10,000, United States Senator David I. Walsh, in a telegram from Washington, expressed pleasure today that the Boston Evening American has opened a campaign to eliminate or reduce the unfair state income tax.

Shoes, Hides Tariff Is Put Back On

Washington, April 15 (AP)—The House committee on Ways and Means, all now on the free list, were agreed upon today by the House to restore the tariff on shoes and hides.

75 School Children Marched Out in Blaze

St. Johnsbury, Vt., April 16 (AP)—Seventy-five children were marched to safety after fire broke out in a school in North Danville today. Fire apparatus was summoned from a high school and threatened to spread the flames to houses in the vicinity.

SPENT \$6000 DRUGGIST IN GARRETT CASE SAYS

The late James T. Maguire, Oliver B. Garrett's friend and attorney, was named today as having collected between \$5000 and \$6000 for protection of liquor traffic at an arrest druggist.

George F. Martin of Dorchester, former proprietor of Bassett's drugstore, who said he retained Maguire at the suggestion of

COOLIDGE HEADS MEETING HERE

CALVIN Coolidge, former President, was in Boston today and he presided at the semi-annual meeting of the American Anti-Quarantine Society held at the American Academy of Arts and Sciences on Newbury st.

Corbet May Not Be Tried in Kidnapping

New York, April 16 (AP)—J. Morgan Corbett, wealthy Bostonian, will not be brought to New York to answer charges of having directed the kidnapping of James Quinn, aviation mechanic, unless sufficient evidence is uncovered to warrant the holding of three men.

IN STOCK DEALS

Extensive real estate and stock transactions by the Hines were shown.

EASTER RADIO BROADCAST TO SPAN NATION

San Francisco, April 16.—Radio will assume a special significance this Sunday.

Radio has been many times before the message of "Hudson to Him in the Heavens" will be heard across the length and breadth of the land, in the great mansions of the east, in the quiet, lonely places, in the great capitals and in those locations where radio reaches out with its far ranging power of waves.

For San Francisco is to broadcast through the cooperation of the National Broadcasting Company, the Hearst Radio Service and the Examiner, the great Easter morning services on Mt. Davidson. The message from Christ's tomb, enduring for 2000 years, will be heard by that great host of listeners scattered over the vast area between the Pacific and Atlantic oceans, beyond the Canadian border and all the way across the southern frontier.

WILL FILL THE AIR

The Examiner, a unit of the Hearst radio, is giving the National Broadcasting Company as a gesture of civic pride and in an effort to give the nation a better Easter service to the nation.

The air is to be given by the country to Easter music and Easter messages. Dr. Louis Whit, professor at the San Francisco Theological Seminary at San Anselmo, is to give the Easter sermon. A unique note to the broadcast will be the organ music which is to originate in the studio of the N. B. C. and be relayed to those congregations on the mountainside. The service will be accompanied by special amplifiers. The organ feature sent from N. B. C. will go over the phone wires used for radio broadcasting and will be amplified to meet the requirements of the vast congregation. Paul Carson will be the organist.

OVER WIZ IN EAST

Orchestra music to be provided by the San Francisco Concert orchestra, directed by Max Dolin. Eva Gruninger Alkinson, contralto, will be the vocalist.

The Rev. Charles P. Deems, D. D., rector of Trinity Episcopal Church, will give the invocation. The services are to close with the Rev. Herbert P. Shaw, D. D., pastor, Westside Christian Church, bestowing the benediction. The entire broadcast will be on the air for one hour. Eastern listeners will hear the service through WJZ New York, from 8 to 9 a. m.

Communists Seek Prisoners' Release

Mexico City, April 16 (AP)—A message demanding that the Brazilian Ambassador to Mexico intervene on behalf of communists imprisoned in Brazil was hurried through the window of the Brazilian embassy today.

The message was attached to a globe and inasmuch as the ambassador is now in Rio Janeiro, the Charge D'Affaires received it and immediately asked police protection against further attempts of this kind.

Death on Gallows Is Kansas Verdict

Topock, Kan., April 15 (AP)—A verdict which makes mandatory a sentence of death on the gallows for Carl Panzan, Leavenworth Federal penitentiary prisoner, for the slaying of R. G. Warkie, civilian laundry foreman at the institution, was returned in federal court today by a jury of Kansans, whose state long ago abolished capital punishment.

Seized Wine Destroyed

Plymouth, April 15.—The gutter along South Russell st. from the police station to the ocean was red with wine when State and Federal officers destroyed more than 1200 gallons of Italian wine and moonshine that had been seized in raids.

Miss Miller is just one of the Hollywood stars—one of the 5,000,000 daily sales—who have found that Kissproof gives the lips a lasting perfection, as surely attested by Nature itself. Kissproof is the only lipstick that will not smudge or fade.

Notice the Kissproof lip of Miss Miller. It is the only lip that is "Kissproof".

"At Last! a Lipstick that really stays on!"

—says lovely Patsy Ruth Miller, across America for the beauty of her lips. "Both on the set and off I can't be bothered continually reapplying lipstick. That is why I prefer Kissproof. When I put it on my lips in the morning, I know they'll stay 'just' and look their best until night."

King Alfonso Douses Princess' Suitor

Seville, Spain, April 16 (AP)—Spaniards tittered today over a prank played by King Alfonso on the Duke of Segovia, youthful nephew of the King of Italy, who, rumor has it, soon will become engaged to the Infanta Beatriz, Alfonso's eldest daughter.

In the presence of Beatriz and others of the royal family King Alfonso led the young man to a bench in the palace gardens of Alcazar.

As the duke sat down his wrist released a spring that controlled a concealed fountain and he was drenched by water as Alfonso, the Infanta, and the duke's mother, the Duchess of Aosta, all laughed merrily.

RUM RING HAD SOVIET TO RUIN PETERHOFF

Trenton, N. J., April 16 (AP)—Bank deposits at one time totalling \$270,252 were disclosed in two indictments returned against 50 persons in connection with the liquor syndicate broken up last October by a series of raids along the Jersey Coast.

Leningrad, U. S. S. R., April 16 (AP)—Peterhoff, built more than 200 years ago by Peter the Great as the imperial summer residence and known as the Versailles of Russia, soon will be converted into a recreational center for Soviet workers' families.

Peterhoff is world famous for its magnificent palaces, fountains, parks, cascades, lakes, grottoes and statuary. American visitors recall it chiefly as the quaint Dutch village called "Nijmegen" where the last night-dinner, slippers and nightcap of Peter the Great are displayed.

At the Radio Dial

By THE RADIO EDITOR

AUSTRALIA produced Percy Grainger, the pianist-composer, whose lively tunes are favored by American and English piano students above the works of all other living composers. Tonight this composer of Mrs. Nellie Melba plays for a vast radio audience in the Mobiloil Concert on WEEI and N.B.C. stations across the land.

MUCH of Grainger's career was molded through contact with Ed-

ward Grieg. He studied with the Norwegian genius in London and in Norway

1906 and 1907, the last 100 years of that composer's life.

Tonight's program is particularly divided between the Scandinavian and the Australian.

Percy Grainger will be heard this master by playing Grieg's Concerto in A minor, with the

the Mobiloil Concert Orchestra, Nathaniel Shulman conducting. The

program will close with three move-

ments from Grieg's Peer Gynt Suite, "Morning," "Anitra's Dance,"

and "In the Hall of the Mountain King." Another Grieg number, "To the Springtime," will be played by the

guest artist as a piano solo.

LISTENERS who thrilled at Rosa Ponselle's singing of the

Swiss Echo Song a few nights ago, will be able to tune in the

same melody tonight. The musical

study in soprano contraltos will be done by Olive Palmer in

the course of the Palmolive Hour.

The light-hearted singer should make a good effect with the num-

ber, despite the handicap of

temperature; (11:00)—Organ, At-

trium; Weather and flying for-

ward; news dispatches.

WLEX—Capitol Theater Organ.

vious performance by a more ex-

traordinary colleague.

THERE ARE nights when radio

risers out of the doldrums and gives

a hint of the great force which it

can become in time. Last night

was one of these. Without a single

celebrity for announcements to excite

eyes, the evening's program was

folded itself in brilliant and varied

patterns.

THE RIDE of Paul Peters, pic-

tured closely to the standard ver-

sion. There were effective bits of

atmosphere, as when the two Sons

of Liberty borrowed the study

of Boston bouffant's red flannel pol-

ice to muffle their coughs. One

wondered what would have been

the fate of the nation if dimes of

75 had had themselves in the

styles affected in these effete

days. Some night, the story should

be picked up where last night

left off, and we should be given the

stirring events of that day in Con-

cord and Lexington.

FR. FINN's choir sang Back's

Crucifixion music with marvelous

precision and musical understand-

ing during the Eversley broadcast.

The brief interpolated readings

from Saint Matthew's Gospel ac-

count of those last days were de-

lightened and yet dramatically

One of the most difficult bits of

musical singing heard on the air

was accomplished by a boy an-

na and boy contralto.

AUTOMOBILE NEWS

SMOOTHNESS IS BIG FEATURE OF DE SOTO

The smooth performance characteristics and low updraft cost enjoyed by owners of the De Soto are the result of careful engineering, says H. H. Clark, general manager of the De Soto Motor Co. As a member of the Chrysler Motors group, De Soto enjoys the benefits of the company's work in the field of motor engineering.

In securing this new first powered body, quality features are being found in the design.

The De Soto's smoothness is given by its suspension system. The suspension system is the result of the De Soto's smoothness, which is the result of the De Soto's smoothness.

"In order to obtain the maximum power and smoothness from an engine," says H. H. Clark, "the Chrysler engineering staff has in mind engine and bearing design must be reduced as much as possible. There are certain conditions upon the main bearings when the engine is running, and to maintain force and to the connecting rods and pistons.

In the new Nash twin-ignition eight cabriolet these four drivers have found the ideal car for their all-year-round driving. The permanent top, with its strong, non-shatterable glass in windshield and all windows, affording perfect protection, folds down nearly when the handsome closed car is converted into an attractive open model. The new cabriolet, one of the most popular models of the famous Nash "400" series for 1930, has an unusual appeal for the youthful driver and the discriminating motorist generally.

Parking Privilege for Drunken Drivers

As the result of a new ruling in Monroe, La., intoxicated drivers may park their cars in the time-limited zones and will not be fined for violation of the city parking laws. It is explained that an automobile parked in a time-limited zone is in a much better situation than a speeding car with a drunken driver at the wheel.

Japan at Top in Highway Mileage

Considering the area and total mileage only, without regard to quality of road, surface, Japan leads the world with three miles of road to the square mile, followed by Luxembourg, with 2.6; Northern Ireland, 2.5; United Kingdom, 2; Denmark, 1.9; Belgium, 1.8; Lithuania, 1.8; Germany, 1.9; Netherlands, 1.8 and Hungary, 1.6. The United States has one mile of road to the square mile of land.

Machine Perfects Pistons for Fords

Pistons for the Ford car and truck are being finished automatically to within very fine limits of weight as the result of the development of a new machine by engineers of the Ford Motor Co. To insure smooth performance and to make possible mass production, every moving part must be manufactured to very definite specifications.

Perpendicular Light Test by Railroad

Columbus, O., April 10.—Officials of the Pennsylvania Railroad have agreed to equip a passenger locomotive with a perpendicular beam-light and operate it in Ohio as an experiment looking to greater safety. The State Public Utility Commission announced today. The beam of the perpendicular light will extend upward for 700 or 800 feet, and it is believed it will be seen by motorists at a much greater distance than the present horizontal beam.

WILLYS-KNIGHT SPEEDING TAGS LEAD TO SALE

Nearly fifteen years ago, John S. Willys, at that time president of the Willys-Knight Company, returned from Europe with a license for his company to manufacture motor cars employing the Knight sleeve valve engine, according to Herbert Pich, district manager of Willys-Knight Co. The sleeve valve engine was little known in America then, although it was the favorite engine of Charles Y. Knight, of Chicago, who developed this power plant.

Shortly thereafter the Willys-Knight Company developed the production of motor cars using the sleeve valve engine. From the start, the Willys-Knight engine won a position in American motor cars.

The sleeve valve engine, according to Pich, had been adopted in England and other European countries, and received highly successful being employed in such cars as the Daimler, Mercedes, Panhard-Levassor, Peugeot and others. It is notable that this type of engine has for years maintained its outstanding position among the quality cars of Europe.

Because of the high type of craftsmanship required in the building of this motor and the quality of materials that went into its structure, the cost at first was greater than for most cars in its class. However, the Willys-Knight Company, through manufacturing economies, has gradually reduced the production cost and passed this saving on to the retail end at lower prices.

It is worth mentioning that while manufacturing costs were being reduced, the quality of the car was materially improved, the climax being reached in the 1929 production of the new Willys-Knight "400" series, and the Willys-Knight "400" series.

ALLEN WARS ON RECKLESS DRIVERS

Predicts Death of 600 Before Christmas in Opening State House Radio Station

At a public hearing in 600 State st. today, Mrs. Allen predicted the death of 600 people before Christmas in the opening of the State House radio station. She said that the reckless drivers were the cause of the deaths and that the State House should take action to prevent such deaths.

DAILY HEADLINES

At a public hearing in 600 State st. today, Mrs. Allen predicted the death of 600 people before Christmas in the opening of the State House radio station. She said that the reckless drivers were the cause of the deaths and that the State House should take action to prevent such deaths.

FOLLOW THE RULES.

Here are the fundamental rules of the State House radio station:

1. Obey the rules and regulations of the State House radio station.
2. Keep your mind on your driving and do not drink and drive.
3. Learn the "rules" of having your car under control.
4. Obey all traffic and parking regulations.
5. Keep to the right, and comply with road markings and signs.
6. Signal for stops and turns.
7. Show down at crossings.
8. Avoid your driving in road conditions—rain, ice, fog.
9. It doesn't pay to take the risk.
10. When you drive, remember the time when you were a pedestrian.
11. Know the law. It was passed by a majority.

Charity Ball for Dorchester K. of C.
